

If the bed needs to be completely taken apart then view the “Comfort Sleeper Total Disassembly Instructions” on the website before beginning disassembly

ALL PARTS REMOVED WILL BE REUSED DURING ASSEMBLY

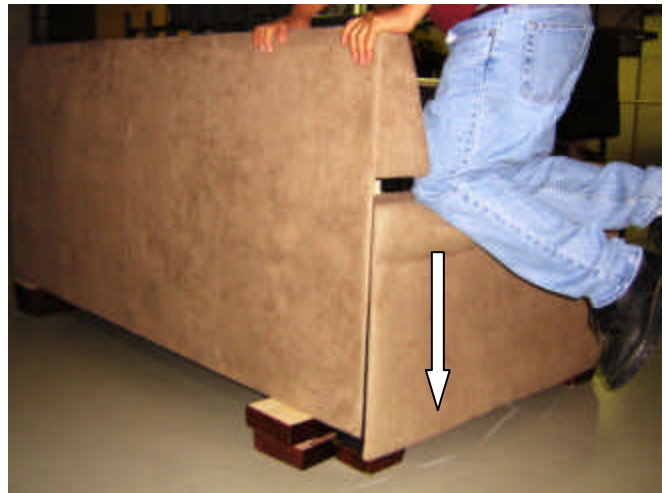

1. Open bed half way and remove green strap.
Save all parts for re-use

2. Remove one bolt (5/16" x 2 1/4") from each inside arm. Removing back drops the height 4 1/2"
Removing legs drops the height 1 1/2" - 2" more

3. Prop up back of sofa with wood blocks or books

4. Press top of the arm down to loosen back hooks

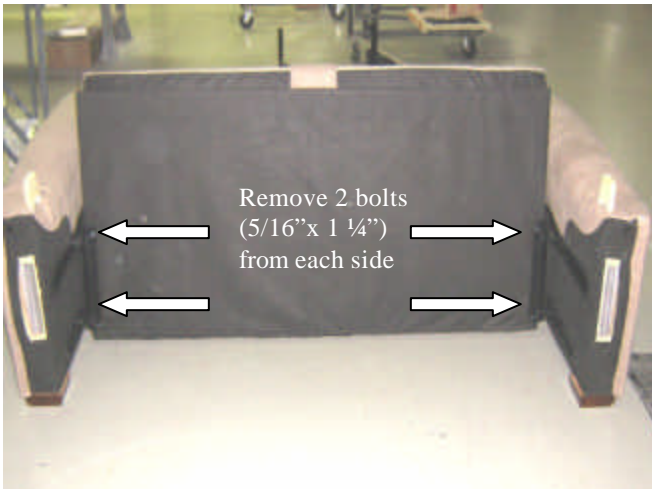

**Comfort Sleeper Disassembly For Delivery
American Leather 6/10/06**

5. Lift Outside Back up and back to remove

6. Tie the backs of the arms together. A shipping strap could be used if the leather / fabric are protected by a blanket / bag, or, replace the sofa bag, and tape around the sofa

7. If more height reduction is required then remove the back bed section

8. Removing back bed section

9. Lift back bed section out of frame

10. Sofa is now only the height of the arm which varies from style to style
